## ABOUT SCES

Shree Chanakya Education Society (SCES), Pune, was founded in 1994 with a vision to nurture corporate and entrepreneurial talent among the youth. Recognising that strong education is the foundation of global leadership, Indira Group of Institutes (IGI) was established to provide world-class learning across diverse disciplines.

Under the leadership of Dr. Tarita Shankar, IGI has expanded into a dynamic educational ecosystem with 12 institutions, offering programmes from Kindergarten to Doctorate levels. The group provides specialised education in Management, Information Technology, Pharmacy, Commerce, Engineering, and Mass Communication, equipping students with crucial skills to thrive in their careers.

At IGI, we emphasise economic independence and entrepreneurship, encouraging students to carve their own paths in the Indian and global economy. Our strong industry collaborations have played a vital role in this mission, with business leaders sharing insights and inspiring students to innovate and lead.

With a commitment to excellence and social responsibility, IGI continues to shape future leaders who are not just career-ready but also prepared to make a meaningful impact on society.

## ABOUT INDIRA UNIVERSITY

Indira University, an epicenter of a thriving educational ecosystem, aims to provide transformative education to students. As a beacon of academic brilliance and innovation, Indira University (Pune) empowers individuals with the right skills, a forward-thinking approach, and a pursuit of leadership to enhance the nation's economic and societal growth. We strive to augment students' potential, create career opportunities, and guide them toward success.

The university believes in fostering an environment of lifelong learning, cultivating a generation of future leaders, and empowering youth to meet the needs of a rapidly evolving world. We envision elevating excellence and driving global impact!

## VISION

To be a global centre of higher education fostering excellence in teaching and research, for societal well-being and sustainable planet.

## MISSION

- Promote excellence in teaching, leadership, and innovation while ensuring equitable access and an inclusive, supportive learning environment for diverse learners.
- Foster strong collaborations with industry, academia, and the community to promote inclusive and impactful growth.
- Empower students through holistic education that integrates values, skills, character, and a deep sense of social and environmental responsibility.
- Create a vibrant research and innovation ecosystem that nurtures entrepreneurship and drives sustainable development for societal progress
- Enhance global engagement through international partnerships, joint research initiatives, and academic mobility to develop globally adaptive professionals.

## MESSAGE FROM THE PRESIDENT

Dear Students,

Indira University stands as a beacon of academic excellence, ground-breaking innovation, and all-round development, shaping future leaders with the right knowledge, skills, and a futuristic approach. For more than 32 years now, we have been nurturing bright minds by creating an ecosystem of extensive learning and creativity, driving positive global impact.

We believe that education extends beyond books! It has the power to transform the future and contribute significantly to the benefit of society. Our dedication to creating industry-aligned programmes, offering experiential learning, and inculcating leadership qualities in the students ensures that they deliver their best in the evolving global business landscape. Through a comprehensive curriculum, guidance from the richly experienced faculty, and broad industrial exposure, we make our students innovators, problem-solvers, critical thinkers, and change-makers!

At Indira University (Pune), we strongly focus on nurturing not just academically brilliant students but compassionate, ethical, and socially responsible leaders to create a meaningful impact on the world. We instill values like integrity, empathy, sustainability, and mutual respect in every student. This empowers students from all backgrounds and makes them feel valued. We envision nurturing a global mindset that prepares our students to excel in an interconnected world. As we move forward, we remain committed to embracing technological advancements and promoting outcome-based education to stay on top of the learning curve. Let us create a future where education empowers individuals, excellence drives progress, and success scales new heights!

A promising future awaits you!

### **Dr. Tarita Shankar**

President - Indira University,

Chairperson and Chief Mentor - Indira Group of Institutes

## MESSAGE FROM THE VICE CHANCELLOR

Dear Students,

It's my pride and pleasure to welcome you all to Indira University. Our parent body, Shree Chanakya Education Society, has a legacy of more than three decades in the education arena and has consistently supported industries and society with technically competent professionals who are responsible global citizens.

As you are ready to embark on a new journey of growth and discovery, remember that education is not just about earning a degree. It is about gaining wisdom, developing life skills, leveraging opportunities, giving back to society, and more. At Indira University, we are committed to creating academic prowess, 360-degree development, and staying industry-aligned at all times. We strive to shape our students in such a way that they thrive in the competitive world and navigate real-world challenges with expertise and exemplary professionalism. Our Incubation and Innovation Cell, 'Swakiyam', will support and nurture students to be innovators and entrepreneurs. With unwavering support from our learned faculty, collaborative learning environment, industry exposure, and focus on upskilling, we empower you to become exceptional leaders and problem-solvers in the future.

I encourage all students to keep their curiosity alive, embrace an out-of-the-box thinking approach, and cultivate perseverance before beginning the academic journey with us. An impactful syllabus with a wide range of electives to choose from, including music, drama, dance, etc., and life skills, with more focus on sustainability, will ensure the holistic development of students. The world is full of opportunities. With the right skills, positive attitude, and steadfast commitment, you can break barriers and achieve exceptional growth while remaining grounded and living a harmonious life.

The success mantra for today is to believe in yourself, stay devoted, and don't let your passion fizzle. We are here to support our students at every point. Utilise this opportunity to explore beyond boundaries, seek creative solutions, broaden your horizons, and earn success. Make the most of every chance you get to expand your learning, evolve, and create a meaningful impact on society. The future is full of possibilities. Seize them with confidence and vigor!

Wishing you knowledge, success, growth, and an inspiring academic journey ahead!

# SCHOOL OF BUSINESS

The **School of Business** carries forward the legacy of acclaimed management institutions, collectively holding NBA accreditation, NAAC A Grade status, and 45+ awards, now unified under one ambitious roof.

Our programs in **BBA**, **MBA**, and **Ph.D.** are designed for the world as it is becoming: AI-integrated curricula, industry-embedded learning, and global immersion experiences that go far beyond the conventional learning. From our International Immersion Programmes, delivered in partnership with a globally ranked university, to curated masterclasses by senior practitioners, every element of your journey here is designed to make you genuinely, demonstrably ready.

Specialisations across Finance, Marketing, HR, OSCM, Business Analytics, Digital Marketing & AI, Global Finance, and Entrepreneurship gives you the freedom to go deep in what drives you, supported by faculty who have walked the path themselves.

The future of business needs leaders who can think clearly, act boldly, and lead with empathy. We build those leaders.

## The school offers

# SCHOOL OF COMMERCE AND COMPUTER APPLICATIONS

**The School of Commerce and Computer Applications (SOCCA)** at Indira University is dedicated to developing future-ready professionals with strong foundations in commerce, economics, finance, business, and technology. Recognized among the leading commerce institutions in Pune and accredited with NAAC Grade A, the school combines academic rigor with practical learning, industry engagement, global exposure, and research-driven education.

SOCCA offers a diverse range of programmes designed to meet evolving industry demands. At the undergraduate level, B.Com students can specialise in Financial Markets, Fintech, Accounting and Taxation, or Business Administration. For postgraduate learners, M.Com is offered with specialisations in Advanced Accounting and Financial Markets and Business Administration. The school also offers a B.Sc in Economics, a Master of Computer Applications (MCA), and a Ph.D. – Doctoral Programme in Commerce & Computer Applications for those pursuing advanced research in the field. Recognising the growing convergence of commerce and technology, SOCCA integrates cutting-edge domains such as Artificial Intelligence, Cyber Security, and data-driven decision-making into its curriculum, equipping students with the digital fluency essential for modern business environments. The school's Economics programme further strengthens analytical thinking and policy understanding, while the MCA prepares students for careers in software development, computer applications, and emerging tech - bridging the gap between business acumen and technological expertise.

## SOCCA offers a diverse portfolio of programs, including

- ◆ B.Com
- ◆ B.Com (Fintech) powered by SAS
- ◆ B.Sc (Economics) powered by SAS
- ◆ M.Com
- ◆ MCA powered by IBM
- ◆ Ph.D.

### Building Bridges Beyond Boundaries: Our Global & Industry Partnerships

At Indira University, we firmly believe that true education transcends classroom walls. To ensure our students gain exposure to the best of global academia and industry practices, we have built powerful strategic alliances with world-renowned universities, forward-thinking corporations, and impactful social organisations. These Memoranda of Understanding (MoUs) are not merely agreements on paper; they represent our unwavering commitment to providing students with real-world experience, international perspectives, cutting-edge research opportunities, and industry-relevant skill development. Each partnership is carefully chosen to complement our academic vision and enhance the overall growth trajectory of every student who walks through our doors.

### The Global Immersion Programme - South Korea

*Experience Asia's Most Dynamic Economy, First-Hand*

One of the most defining highlights of the Indira University experience is our exclusive 3-Week & 4-Week Global Immersion Programme in South Korea - a transformative journey that places students at the heart of one of Asia's most powerful and rapidly evolving economies.

This is not a study tour. This is education in its truest, most immersive form.

During this intensive program, students step out of the classroom and into the real world of international business, finance, and cross-cultural leadership. They gain hands-on exposure to:

**International Financial Market Analysis** - Learning to read, interpret, and strategize around global market movements in real time.

**Diverse Market Data Interpretation** - Understanding how financial data varies across economies and what it means for global business decisions.

**Currency Fluctuation & Forex Dynamics** - Gaining practical insight into how currency movements shape international trade, investment, and corporate strategy.

**Cross-Border Regulatory Navigation** - Developing the knowledge and confidence to operate within the complex web of international compliance, trade laws, and global governance frameworks.

**Cultural Intelligence & Global Mindset** - Immersing in South Korea's unique business culture, building the interpersonal skills essential for thriving in diverse, multicultural work environments.

### 1-week International Immersion Program at Taylor's University, Kuala Lumpur, Malaysia.

MBA students participate in a one-week international immersion program at Taylor's University, Kuala Lumpur, Malaysia, designed to provide global academic exposure and experiential learning. The program includes academic sessions, industry interactions, and cross-cultural experiences that broaden managerial perspectives and enhance value-added learning beyond the classroom.

## International MoUs and Industry Collaborations - A World of Opportunity at Your Doorstep

### MoUs Signed with Leading International Universities

- **KUT University College, Republic of Iraq** - Expanding our global academic footprint into the Middle East, promoting collaborative research and international student engagement.
- **Korea University** - Strengthening ties with one of Asia's most reputed institutions, fostering academic collaboration, cultural exchange, and international research initiatives.
- **SEGi University & Colleges** - A strategic academic alliance enabling cross-border learning opportunities, credit transfers, and joint academic programmes with a leading Malaysian university.
- **Rochester Institute of Technology | DSO (RIT Dubai)**

### MoUs Signed with Leading Industry Players

- **eClerx Services Ltd.** - Connecting students with one of India's leading business process management companies, creating avenues for internships, live projects, and industry-aligned learning.
- **Philips India Limited** - A landmark collaboration with a global leader in health technology, providing students access to cutting-edge innovation, industry mentoring, and global best practices.
- **Solar Industries India Ltd.**
- **Opulence Consult - Authorized Training Partener of MinnaLearn, Finland- Europe** for European curriculum-aligned academic programs.
- **Ultra Corpotech Pvt. Ltd.**
- **Knorr-Bremse Technology Centre India Pvt. Ltd.** - Enabling students to engage with global engineering and technology innovation through one of the world's leading manufacturers of braking systems.
- **Berger Paints India Ltd.-** Fostering industry interaction in the manufacturing and FMCG sector, providing students with real-world business exposure and hands-on learning opportunities.
- **Fun and Joy at Work-** Promoting workplace wellness, positive organizational culture, and employee engagement practices to prepare students for thriving, balanced professional environments.
- **Sohum Global Education (OPC) Pvt. Ltd. (for rural immersion)-** A unique partnership dedicated to rural outreach and community development, giving students meaningful ground-level exposure to India's grassroots realities and social challenges.
- **Sunward Growth Advisory LLP.-** Empowering students with strategic business mentorship, entrepreneurial guidance, and industry advisory support to fuel their professional ambitions.
- **Ayush Anand Yog Institute-** Reinforcing our commitment to holistic well-being by integrating yoga, wellness, and mindful living practices into the student experience.
- **International Healthcare Association for RCM, Technology, and Services (iHARTS)** - A strategic partner for Training and Internships.
- **Wheel of Innovations, Pune** for National Immersion Program in Goa.

### A Network That Opens Doors Across the World

These partnerships collectively form a robust ecosystem of opportunity, learning, and growth for every student at Indira University. Whether it is through international academic exchanges, industry internships, rural immersion programmes, AI-driven research, or thought leadership forums, each MoU reflects our dedication to delivering an education that is globally relevant, socially responsible, and future-ready. At Indira University, you are not just earning a degree - you are building connections, gaining experiences, and becoming a part of a network that spans continents and industries.

## FROM THE CHAIR'S DESK

The landscape of careers is evolving faster than ever, and with it, the expectations from young professionals are undergoing a fundamental shift. At **Indira University**, we recognize that placements today are not just about securing roles-they are about shaping individuals who can contribute with awareness, adaptability, and purpose.

This year's theme, **Navachetana - Rise of Conscious Innovation**, reflects this very shift. It underscores the importance of nurturing talent that thinks beyond immediate outcomes and focuses on long-term value, ethical decision-making, and sustainable impact.

The Placement Cell stands at the intersection of academia and industry, committed to creating opportunities that align ambition with responsibility. Our students are equipped not only with strong academic foundations and technical expertise, but also with the mindset to navigate uncertainty, collaborate effectively, and lead with integrity.

We remain deeply grateful to our corporate partners, whose continued engagement has enabled us to build a dynamic and future-focused talent ecosystem. Your collaboration plays a vital role in shaping individuals who are ready to take on complex challenges with clarity and consciousness.

As we move forward, we invite organizations to connect with a pool of talent that is prepared to contribute meaningfully from day one.

At **Indira University**, we are not just enabling careers-we are shaping professionals who will define what responsible progress looks like.

### **Dr. Nihit Jaiswal**

Director, Placements - Indira University

## Where Talent Meets Opportunity

At Indira University, placements are not an afterthought; they are a promise. Our Placement Cell works tirelessly, year-round, to bridge the gap between exceptional student talent and the right industry opportunities. With a dedicated Corporate Relations team, an industry-aligned training ecosystem, and long-standing relationships with some of the world's most reputed organizations, we have built a placement culture that consistently delivers results.

Our students at Indira University are not just degree holders; they are professionals in the making. Here is how we prepare them before stepping out into the corporate world:

**Job-Ready** - We train them specifically to meet real-world corporate demands from day one.

**Professional Work Ethic** - We instill a performance-driven attitude through rigorous academic and co-curricular engagement.

**Versatile Skill Sets** - We groom them for competencies spanning technical expertise, communication, and leadership.

**Industry-Aligned Training** - Our programmes are tailored through active collaboration with leading industry partners.

## The Placement Cell - Making Careers Happen

Our active Corporate Relations team, comprising experienced Directors and enthusiastic student ambassadors, has made Indira University Placements one of the most respected in the country.

**650+ companies** visit the campus annually for summer internships and final placements.

**Diverse job profiles** across Marketing, Research, Operations, Sales, Consulting, Finance, Banking, Business Analysis, Software Development, Testing, Supply Chain Management, and more.

**Representation from all major sectors** - Banking, Financial Services, Automotive, Logistics, Retail, Manufacturing, Hospitality, IT, Consulting, Research, Pharma, Telecom, Media, FMCG, FMCD, E-commerce, and Real Estate.

**Long-standing relationships and MOUs** with multinationals, Indian MNCs, and leading Indian corporates.

## Industry-Ready Training — Powered by Gryphon Academy Pvt. Ltd.

### *Transforming Indira University Students into Corporate-Ready Professionals*

We provide our students with industry-ready training to ensure they meet the evolving expectations of the corporate world. Indira University has partnered with **Gryphon Academy Pvt. Ltd.**, a renowned professional training organization recognized for its industry-aligned curriculum and impactful corporate readiness programmes.

#### Gryphon Academy Training Differentiators

- Customized Training Programmes
- Experienced Industry Trainers
- Comprehensive, Hands-On Training
- Certification & Post-Training Support
- Strong Education Partnerships
- Continuous Programme Upgradation

### Comprehensive Training Framework

#### *Because Your Success is Our Responsibility*

We know that choosing a university is one of the most important decisions you and your family will ever make. At Indira University, we want you to know from day one that your career is not something we leave to chance. Our partnership with **Gryphon Academy Pvt. Ltd.** has allowed us to build a structured, result-oriented training ecosystem that goes far beyond the classroom.

Our Gryphon-led training framework is built on **four powerful pillars** — each designed to ensure that when you walk into that interview room, you walk in prepared, confident, and ready to win.

#### Pillar 1 — Soft Skills & Communication Development

##### **Because How You Present Yourself Matters as Much as What You Know**

Dear student, your ideas are powerful — but only when you can communicate them effectively. We help you build exactly that. Through our Soft Skills & Communication modules, you will develop the ability to write professionally, listen actively, speak publicly with confidence, and carry yourself with poise in any corporate setting.

We go a step further by introducing you to globally recognized personality frameworks — **OCEAN and MBTI assessments** — helping you understand your own strengths, work style, and communication patterns. For parents, this means your child will not just be technically competent — they will be someone employers remember, respect, and want on their team.

#### Pillar 2 — Aptitude & Logical Reasoning Training

##### **Because the First Step to Getting Hired is Getting Shortlisted**

Most top companies begin their recruitment with aptitude assessments — and we make sure our students ace them. Through structured, rigorous training in **logical reasoning, mathematics, and data interpretation**, we prepare you for every kind of placement test you may encounter.

Our modules cover number series, averages, percentages, ratios, time-speed-distance, data sufficiency, and much more — ensuring that no test catches you off guard. Parents, rest assured — by the time your child sits for a placement assessment, they will have practiced hundreds of problems and developed the problem-solving instinct that top recruiters look for.

## Pillar 3 — Excel & Business Data Skills

### Because Every Corporate Role Runs on Data

Whether you are stepping into finance, marketing, operations, or HR, Excel is a skill every employer expects. At Indira University, we do not just teach you the basics. We take you from foundational formatting and data entry all the way to **advanced functions** — VLOOKUP, HLOOKUP, XLOOKUP, INDEX & MATCH, logical functions, trend analysis, and professional data visualization.

By the time you complete this module, you will be able to interpret real business data, analyze performance metrics, and prepare reports that look and feel professional. For parents, this means your child will walk into their first job already speaking the language of business.

## Pillar 4 — Domain-Specific Corporate Training

### Because We Prepare You for Your Role, Not Just Any Role

We understand that every student has a different career path in mind — and a one-size-fits-all approach simply does not work. That is why we offer targeted, domain-specific training that aligns with the most in-demand corporate functions, so you are not just job-ready in general — you are ready for your specific role.

Here is what we offer across the three core domains:

**For the Future HR Professionals:** You will explore how HR truly drives culture, performance, and organizational health from within. Your training will cover recruitment processes, payroll management, HRIS tools, AI in HR, performance management systems, workplace ethics, and organizational culture — giving you a 360-degree view of what it means to be a people-first professional.

**For the Future Marketers & Sales Leaders:** You will learn the art and science of selling — from fundamentals to strategy. Your training covers sales KPIs, SWOT analysis, the APEX model, objection handling, benefit-based selling, USP identification, and FABing techniques. We do not just teach you marketing theory — we teach you how to move markets.

**For the Future Finance Professionals:** Numbers tell stories — and we teach you how to read them. Your training covers the basics of taxation, income heads, financial statement analysis, IPO mechanics, market dynamics, risk assessment, and compliance fundamentals — ensuring you step into any finance role with both the knowledge and the confidence to make a real impact.

## MBA Domain-Specific Training Initiatives

Our placement preparation goes even deeper with specialised certification workshops and training programmes across all domains:

### Marketing

- AI in Marketing Certification Workshop
- Meta Advertising Certification Workshop
- Selling Skills Certification Workshop
- IMC Certification Workshop
- Marketing in Real World Certification Workshop
- Google Ads Certification Workshop
- Digital Marketing Training

## LIFE @ INDIRA

Indira University ensures to provide an engaging campus life to the students. The students are encouraged to participate in a range of academic, social, and cultural activities.

## INDIRA UNIVERSITY CLUBS

Indira University has launched five dynamic student clubs, which promise to enrich campus life and foster holistic development. The event was a testament to the university's commitment to nurturing creativity, confidence, and community engagement among the students.

The five student-centric clubs include SheCan Club, The Groove Club, The Wild Ones Club, The Stagecraft Club, and The Capture Crew Club, each designed to ignite passion and foster leadership among students. Distinguished individuals whose exceptional contributions have significantly enriched their respective fields will be mentoring our clubs in their respective disciplines.

Wild Ones Club brings together nature enthusiasts who are passionate about wildlife, biodiversity, and environmental conservation. The club aims to foster awareness about ecological issues, promote sustainable practices, and inspire students to develop a deeper connection with the natural world. Through exploration, learning, and advocacy, Wild Ones nurtures responsible citizens committed to protecting the environment for future generations.

SheCan Club is a platform dedicated to empowering women through mentorship, collaboration, and personal growth. The club encourages confidence, leadership, and meaningful connections while creating a supportive environment where women can learn, inspire, and uplift one another. By celebrating achievements and fostering mutual support, SheCan helps students unlock their potential and become changemakers in their communities.

Groove Club at Indira University is a dance floor for those who love moving to the rhythm of life. From Kathak to Bollywood, Groove Club allows you to unleash the dancer within you. It elevates the creative energy on campus and gives students a platform to explore their artistic side in a vibrant and welcoming environment. Events like these continue to reflect Indira University's commitment to holistic, joyful, experience-based learning.

StageCraft Club is a creative space for students interested in theatre, performance, storytelling, and artistic expression. The club nurtures talent in acting, scriptwriting, stage production, and public performance while encouraging students to use the arts as a medium for communication and social awareness. Through creativity and collaboration, StageCraft helps students develop confidence, empathy, and effective expression.

Capture Crew Club is a hub for aspiring photographers, filmmakers, and visual storytellers. The club encourages students to explore the art and technique of photography, videography, and digital content creation while developing their creative vision. By blending technical skills with artistic expression, Capture Crew empowers students to tell compelling stories and capture moments that inspire, inform, and connect.

# SWAKIYAM FOUNDATION FOR INCUBATION AND INNOVATION

**SWAKIYAM**  
Centre for Incubation and Innovation

"Empowering Innovation & Nurturing Entrepreneurship."

Swakiyam Foundation of Incubation and Innovation is poised to promote the Entrepreneurship Development of Indira University. Swakiyam Foundation aims to fulfil the vision of promoting an entrepreneurial ecosystem to facilitate the mentoring and hand-holding of budding entrepreneurs.

## Functions of Swakiyam Foundation of Incubation and Innovation

### Building Incubation & Innovation Eco-System

- Building Infrastructure
- Creating Facilities
- Offering End to End Services

### Mentoring System

- Building Mentoring Network
- Onground and Industry Mentoring

### Inspirational Industry Exposure

- Industry Internships
- Networking with Inspirational Entrepreneurs

### Partnerships

- Private Partnerships
- Government Partnerships
- Investors Networking Collaboration

**Mr. Baljeet Gujral**

Chairman - Swakiyam Centre for Incubation and Innovation

## FROM THE CHAIR'S DESK

Why do some ideas become enterprises while most remain good intentions?

Rarely the idea; it is the ecosystem around the founder: the right mentor, the right network, and the discipline to correct faster when the first plan fails.

That is why the Swakiyam Centre for Incubation and Innovation exists. As India stands among the world's largest startup ecosystems, our role is to give every student, alumnus, and community founder genuine handholding turning raw ideas into ventures built to last.

We commit to three things: honest mentorship, partnerships that bring real capital and capability, and an institution built to sustain itself.

Entrepreneurs take the route less traversed. Our job is to ensure they never walk it alone.

## YOGAKSHEM - CENTRE FOR POLICY, GOVERNANCE AND IMPACT

### "Vyakti Nirman se Rashtra Nirman"

At Indira University, Pune, Yogakshem stands as a transformative initiative designed to shape responsible, informed, and action-oriented leaders for a rapidly evolving India. Rooted in the philosophy of well-being, stewardship, and societal responsibility, the Centre bridges the gap between classroom learning and real-world impact.

Yogakshem is not just a centre—it is a dynamic ecosystem where students, faculty, policymakers, and practitioners come together to engage with real challenges in governance, public policy, and social development. It is built on a strong belief that education must go beyond knowledge to inspire action, leadership, and service for the greater good.

What makes Yogakshem unique is its practice-first approach. Every student is immersed in experiential learning through policy engagement, grassroots exposure, and community-based projects. From village adoption programmes and NGO collaborations to student-led initiatives like The Future Club and Impact Fest, Yogakshem ensures that learning is deeply connected to society.

The Centre also serves as a hub for research, policy dialogue, and capacity building—supporting NGOs, corporates, and government bodies while empowering faculty and students to contribute meaningfully to national development.

With Yogakshem, Indira University is redefining higher education—nurturing not just graduates, but changemakers equipped to lead with purpose, empathy, and impact.

## FROM THE CHAIR'S DESK

My journey towards Yogakshem has been shaped by a rare combination of experiences that few institutions bring together under one roof. Working with SEWA took me deep into the lives of rural and urban communities across Uttarakhand, Gujarat, Rajasthan, Madhya Pradesh, Uttar Pradesh, Bihar, West Bengal, Delhi, and beyond — where I learned that policy, however well-crafted, means little unless it is understood, owned, and driven by people on the ground. That grounding in grassroots reality was then profoundly enriched by my time at Harvard Kennedy School, where I immersed myself in the worlds of public policy, leadership, and administration — learning from some of the finest minds working on governance and change globally. Later, as the head of Harvard University's centre in India — The Lakshmi Mittal & Family South Asia Institute — I had the rare privilege of sitting at the intersection of world-class academic inquiry and the complex, urgent realities of South Asia. It was this combination — of Bharat and Harvard, of village and seminar room, of lived experience and rigorous learning — that made it increasingly clear to me that what India truly needs is not more institutions that separate thinking from doing, but spaces that deliberately and courageously bring them together. That realisation led me to think about creating a centre of excellence that could offer exactly this to students and practitioners alike. And when I began looking for a home for this vision, I found it at Indira University.

It was this conviction that brought me into conversation with Dr. Tarita Shankar, President of Indira University — a leader whose vision for Indira goes far beyond buildings and rankings. In Dr. Shankar, I found a rare institutional leader who believes, as I do, that a university's greatest responsibility is to society. Our shared belief that education must produce not just professionals but changemakers gave birth to the idea of Yogakshem.

Together, we envisioned a centre that would be truly different — one that would reach every student at Indira, regardless of their discipline, and give them something no examination can test: the awareness to see the world as it is, the empathy to care about it, and the courage to do something about it.

Yogakshem is also a long-term commitment. We do not see this merely as a centre within a university. Our aspiration is to build a national centre of excellence — one that contributes meaningfully to India's nation-building process through shared learning with students, communities, policymakers, civil society, and institutions across the country. When our students go out into the world, we want them to carry not just a degree but a purpose. That, for me, is the deepest meaning of *Vyakti Nirman se Rashtra Nirman*.

### **Dr. Sanjay Kumar**

Chair, Yogakshem - Centre for Policy, Governance and Impact  
Distinguished Professor, Indira University, Pune

## VISHWA CHINTAN - THE CENTRE FOR GLOBAL THOUGHT LEADERSHIP

Vishwa Chintan -The Centre for Global Thought Leadership at Indira University is a transformative initiative aimed at providing students and faculty with direct exposure to global academic and industry expertise. Designed as a vibrant platform for international collaboration, the Centre enables learners to engage with global perspectives, emerging trends, and real-world challenges across disciplines.

Through interactions with international experts, industry leaders, and policymakers, students gain deeper insights into areas such as Artificial Intelligence, Sustainability, Healthcare Innovation, Global Trade, and Media in the Digital Age. The Centre facilitates this exposure through masterclasses, lecture series, research collaborations, conferences, and global dialogues, bridging the gap between classroom learning and the global ecosystem.

By fostering cross-cultural understanding, interdisciplinary thinking, and future-ready skills, Vishwa Chintan empowers students to think beyond boundaries and prepares them to lead in an interconnected world, while positioning Indira University as a hub of global knowledge and thought leadership in line with the vision of Indira University.

### FROM THE CHAIR'S DESK

**Mr. Baljeet Gujral**

Chairman - Vishwa Chintan  
Centre for Global Thought Leadership

At Vishwa Chintan, we begin with a simple conviction: that the most valuable education happens when classroom learning meets the lived wisdom of the world's finest minds.

This Centre was created to bring that world directly to our students; through masterclasses, dialogues, and engagements with global academicians, industry leaders, founders, and policymakers across disciplines as varied as Artificial Intelligence, healthcare, sustainability, global trade, and the future of media.

Our ambition is not merely to inform, but to transform: to help every learner think beyond boundaries, question with rigour, and lead with purpose in an interconnected world.

As we build this platform year on year, I invite our students, faculty, and partners to engage fully and fearlessly. The work of shaping tomorrow's thinkers begins today.

**Mr. Shashi Bhat**

Founder - Gryphon Academy

**Indira University** has partnered with **Gryphon** to strengthen industry-integrated learning and enhance student employability. This collaboration bridges academic learning with evolving industry requirements through industry-aligned curricula, customized training programmes, outcome-based learning, and real-world skill development. Together, we prepare students to become future-ready professionals equipped to thrive in dynamic business environments.

**Dr. R. L. Bhatia**

Founder - FUN & JOY AT WORK

**Fun and Joy at Work** is one of Indira University's strategic partners, committed to fostering a culture of engagement, innovation, and excellence in the workplace. Through experiential learning, leadership development, and industry-focused programs, students gain valuable insights into teamwork, motivation, productivity, and self-leadership. The collaboration also provides exposure to global initiatives such as World CSR Day and World Sustainability, nurturing socially responsible and future-ready professionals.

**Dr. Srinivas Chunduru**

Founder & CEO - VMentor.ai

**VMentor.ai** has partnered with **Indira University's** School of Business to deliver an industry-integrated Field Research Program, enabling students to work on live company projects, conduct sectoral and market analysis, and receive structured mentoring from experienced industry leaders. Through this collaboration, students gain hands-on exposure to real business challenges, strengthen their analytical and problem-solving skills, and enhance their corporate readiness with practical, industry-relevant experience.

## SAFE STORIES - CENTRE FOR WELL-BEING

Mental wellness is an active state of emotional, psychological, and social well-being. It prepares you to steer through life's stressors, recognize your abilities, and build fulfilling relationships. It is practicing equilibrium, strength, and positive self-worth. If the "I" in Mental Illness is replaced by "We", it becomes Mental Wellness. Depression, anxiety disorders, etc affect thinking, temperament or behaviour, creating 'Mental Illness'. Against that, 'Mental Wellness' manages your overall state of mind.

Staying Active, Prioritising Rest, Connecting with Others, Practicing Mindfulness, Nourishing your brain are a few actionable pillars backed by Global Health Organizations. Anxiety, Depression, Social Media, 'Comparison Culture', Macro-anxieties, Stigmas and so forth are the manifestations of mental illness. About 7.5% of mental illnesses emerge between the ages of 10 & 24.

Indira University, being proactive as always, has thought of and started an exclusive initiative for the "Mental Wellness" of students of all Schools of Indira University. For the same, IU has shaken hands with SafeStories.

SafeStories is a mental health enterprise with an aspiration to make mental health a part of daily conversation. SafeStories has consistently and attentively addressed the mental health needs of individuals and families with unwavering commitment and expertise.

Making your mental health a priority, building emotionally resistant workplaces, and Theory Sessions that work for you are a few of SafeStories' mottoes.

Till date, SafeStories has served 800+ Clients, offered 4000+ Sessions, provided therapy of 4500+ hours, and impacted 10000+ Lives.

**Ms. Pooja Jain**

CEO & Founder, Safe Stories, Pune

**Dr. Ashutosh Misal**
